Hybrid Digital Advice

Whether your goal is democratization of the investing process, a small accounts solution, a new revenue channel, lowering infrastructure costs, or faster client onboarding, the FusionIQ One Hybrid Digital Advice module delivers the features you need to realize your vision. From customized RTQs to powerful portfolio management tools, data aggregation and transactions, AML, KYC, and CIP tracking, investor dashboard, advisor workstation, teams management and alerts, the Hybrid Digital Advice module gives you the tools you need to grow.

finTAMP

FusionIQ delivers the first true digital TAMP, integrating our all-in-one advisor platform with end-to-end digital investment management technology. finTAMP provides the modern advisor and client experience, platform flexibility, and efficiency that enables firms to scale, grow and improve profitability.

Self-Directed

The FusionIQ One Self-Directed investing module integrates essential features to realize your goals, whether it's a small accounts solution, a new revenue channel, lowering infrastructure costs, faster client onboarding, or giving your full advice clients an opportunity to make some trades on their own. From AML, KYC, and CIP tracking to check out cart or ticket trading, fractional or whole share trading, investor dashboard, watchlists, recurring deposits and systematic withdrawals, and a variety of account types, the Self-Directed module delivers.

Digital Model Marketplace

The Digital Model Marketplace makes it fast and easy for advisors and firms to create personalized portfolio solutions at scale. Whether you choose models created by leading strategists, build your own, or use a combination of both, you're in control of winning investment strategies at a lower cost. And it gives you a digital channel to distribute your own custom models.
